

NONPROFIT LEARNING LAB

Thank You for registering for an online training with us.

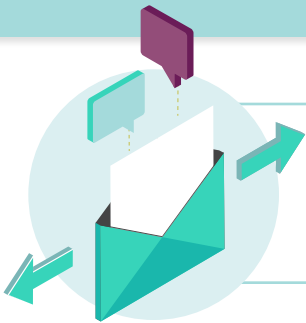

How to Enter the Webinar Room

We will send you a webinar link through GotoWebinar. Only participants that register through GoToWebinar will be able to attend our workshop.

Think of it like walking into a classroom. But rather than opening a door, you have to click on the webinar registration link.

Reminder Emails

We suggest that you register through GotoWebinar as soon as you pay for the training because you will automatically get reminders from GotoWebinar. We know you are busy, so this will help you remember.

Day of the Online Training

Join the online training a few minutes early to make sure you have everything you need. If you don't already have the GotoWebinar application, it will download automatically and place you into the online training. Think of the download as finding a parking spot at a meeting; you need extra time to find a parking spot and you'll need at least one minute to download the GotoWebinar application, so please do it a few minutes before the training begins.

If Your Audio Is Not Working

Check your headphones or computer sound. If it is still not working, follow the instructions in your email from GoToWebinar or the control panel on how to call in using a phone. You can call in from a phone and listen while also watching the screen and visuals.

Different Technical Issue?

Call or text 303-549-2764 or email program@nonprofitlearninglab.org or go to our website www.nonprofitlearninglab.org and you can chat with a staff member via our support chat on the website.
